## TECHNOLOGY NEWS

### Introducing Our New Family of Label Design Software

NiceLabel Pro

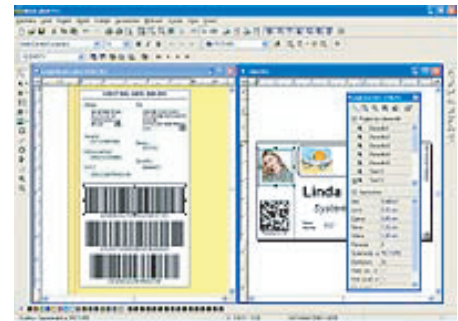

NiceLabel Pro is full-featured software designed for professional label design and printing, including complete database support and integration options.

A wide range of features and options makes it a perfect and easy-to-use tool for any labeling requirement.

- **Powerful**, label designer
- Specialized **bar code wizards** for UCC/EAN 128 and HIBC bar codes
- **Advanced database connectivity** for any type or amount of data
- Advanced **label tracking** and user management
- Visual Basic scripting
- RFID **smart label** interface

#### Powerful label design through a standard and straightforward user environment

By making use of a full-featured set of label design Wizards, even beginners are able to create labels quickly and easily. Any label layout can be designed by combining Windows and printer fonts, bar codes, drawing elements and graphics files. Flexible design tools, presented in a user interface that conforms to the latest Windows standards, help users create labels accurately and quickly. Labels can include a wide range of variable fields such as prompted values, serialized fields and date and time stamps.

#### Bar Code and Compliance Labeling Support

NiceLabel products provide support for all industry-standard bar codes, including 2-D. With multiple options for check-digit calculation, any possible requirement can be supported.

Users are often confronted with particular customer or industry-specific (chemical, automotive, etc.) compliance requirements. NiceLabel provides pre-designed templates and performs automatic bar code validation control. Thanks to leading support for all the latest Automatic Identification standards and emerging Radio Frequency tags, all current or future compliance issues are addressed worry free.
